

**** PhD position + Junior Lecturer positions in Mathematics at Vrije Universiteit Amsterdam ****

The Vrije Universiteit Amsterdam is advertising two fixed-term positions for candidates who hold (or are about to complete) an MSc.

One call is open for candidates interested in pursuing a PhD in Mathematics, and at the same time contributing to the educational program of the department. This fully-funded position is for 6 years (50% research, 40% teaching, 10% organisational activities)

<https://workingat.vu.nl/ad/phd-junior-lecturer-in-mathematics/m2mavn>

Note that this open position is not attached to any specific project, but candidates must discuss in advance topics with a perspective supervisor. It would be pleased to supervise students on a topic at the intersection of applied probability, stochastic optimization, and applications to complex networks (email at a.zocca@vu.nl for further information).

A second call is open for a junior lecturer position without a research component (100% teaching and organisational activities). This fully-funded position is for 4 years.

<https://workingat.vu.nl/ad/junior-lecturer-in-mathematics/7jq030>

Both calls close on March 1st, 2022.

Applications received by e-mail will not be processed. General enquiries on the calls can be sent to Daniele Avitabile: d.avitabile@vu.nl
